

Redwoods Thanksgiving Express

To help you plan your day, Redwoods has put together this timeline to better help you know when everything needs to go into the oven. Simply fill in the time at which you would like to have dinner in the final box, and follow the directions to get the correct times for all of the other side dishes and fill them into the appropriate boxes. Refer to the full directions for specific instructions. Be sure to enlist some help to place these hot items into serving dishes and place them on your table...you can't do *everything*, after all!
